

Cabrellon

tritan™ RENEW

A better material solution for chocolate molds:

- Durable, with splinter resistance
- Withstands temperature changes
- Dishwasher robustness
- Supports production safety
- BPA-free

tritan™
RENEW
from Eastman

We turn it into plastic that is **made new again**.
It can be recycled again and again.
It's plastic, reborn.

Food safe with no BPA
and no chemicals
of concern

Durable in tough
production
environments
splinter resistance

Withstands
temperature
cycle changes &
extensive dishwashing

Anticipated to last
longer-in-use,
optimizing mold
inventory

Recycled content
with end-of-use
solutions

Certified by the leading organizations
